Abhyuday Sachdeva

Digital Transformation · Machine Learning · Technology Consulting

Jaipur, Rajasthan | +91 820 921 4029 | abhyuday1124@gmail.com | LinkedIn | Portfolio | GitHub

Education

B.Tech in Computer Science — Vellore Institute of Technology May 2026
Vellore, India

Class XII & X, CBSE — The Palace School, Jaipur Apr 2022 & Apr 2020

Skills

Languages: Python, SQL, R, C++, JavaScript, TypeScript

ML & AI: Scikit-learn, XGBoost, Gradient Boosting, NLP, LLMs/GenAI, RAG, LangChain, OpenCV

Data & Analytics: Pandas, NumPy, yfinance, Matplotlib, Seaborn, Tableau, Excel

Methodologies: Agile (Scrum), Digital Strategy, API Integration, Emerging Technologies, Project Management

Databases & Tools: MySQL, MongoDB, Git, Jupyter, Streamlit, pytest, Linux

Experience

Research Analyst — Trustbridge Compliance Aug 2026 – Present
Remote

- Researching ML model validation frameworks and governance standards for enterprise AI adoption in regulated environments, covering GAMP 5, CSA, and CSV.
- Prototyping an AI monitoring dashboard to track model drift, audit trails, and data integrity principles, applying technology strategy thinking to real compliance workflows.

AI Developer Intern — SAG Infotech May 2026 – Aug 2026
Jaipur, India

- Built a real-time face detection and recognition system (OpenCV, `face_recognition`) drawing bounding boxes and identifying individuals at similarity score > 0.4.
- Integrated the pipeline into the existing codebase, enabling automated identity verification without manual lookup.

Projects

Quant Signal Screener Agent | *Python, LangChain, yfinance, Streamlit* [link]

- Architected an end-to-end digital platform integrating LangChain agents, OpenRouter APIs, and a Streamlit frontend, covering digital architecture, API design, and live cloud deployment on a fully open-source stack.
- Screens NSE/BSE-listed stock watchlists for technical signals (RSI, MACD, SMA crossovers), reasoning over results with an open-weight LLM to surface actionable insights for end users.

Reducing LLM Hallucination | *Python, NLP, LLMs* [link]

- Evaluated and benchmarked emerging AI technologies (RAG, self-consistency, semantic filtering) for reliability, applicable to enterprise AI platform assessment and technology selection.
- Designed reproducible evaluation benchmarks reducing hallucination rate by **18%** against baseline LLMs, with a modular framework for experimentation across mitigation strategies.

Positions of Responsibility

Finance Lead — Computer Society of India (CSI) May 2024 – Feb 2025
Vellore Institute of Technology, Vellore

- Managed budgeting, fund allocation, and financial reporting for 5+ technical events hosting 1,200+ participants; built Excel-based expense tracking models for club treasury.

Project Lead — ISTE Aug 2023 – Apr 2024
Vellore Institute of Technology, Vellore

- Managed a cross-functional developer team using Agile-style delivery; coordinated sprint cycles, delegated tasks, and ensured on-time project completion.
- Mentored junior members in technical skills and facilitated stakeholder-facing progress reporting.
